INTRODUCTION

In keeping with the fast, precise and reliable capabilities of our Model MS-10075 Bench Top Marker, the MS-10030 Series Portable Dot Peen Marking System is lightweight and ideal for applications where it is easiest to bring a pistol grip style marking head to the part.

Perfect for marking large or heavy objects that need professional looking identification. The option of the adjustable V Fixture creates a stable platform on those hard to mark round components where marking is required along the circumference. The nesting fixture is fully adjustable to allow the marking penetration to be controlled.

FEATURES

- Lightweight (approx 3.5Kg / 7.7 Lbs)
- Ergonomic grip designed for operator comfort
- Optional adjustable nesting fixtures available
- No separate power cable required
